2023 FINAL DIVIDEND

Centamin is pleased to announce that the Board of Directors recommend the payment of a final dividend of 2 US cents per share, for the six months ended 31 December 2023.

DIVIDEND POLICY

Stakeholder, and specifically shareholder returns, are central to our Company strategy. Centamin was one of the first gold producers to pay a dividend under a structured policy. We have since built a ten-year track record of returning cash to shareholders, totalling US\$881m (inclusive of the FY23 final dividend).

As a result of our continued commitment to shareholder returns, the dividend policy remains unchanged from our previous commitment to return a minimum of 30% of Group free cash flow before growth capital expenditure¹ to shareholders in cash dividends. In addition to the minimum dividend, the balance sheet is assessed by the Board which will use its discretion to allocate the remaining available cash to growth projects and supplementary dividend payments.

2023 FINAL DIVIDEND

The Board proposes a final dividend of 2 US cents per share (US\$23 million). The final dividend will be subject to shareholder approval at the Annual General Meeting on 21 May 2024, which will be hosted in Jersey.

Following the interim dividend of 2 US cents (US\$23m) that was declared in July 2023 and paid in September 2023, the final dividend brings the total dividend attributed to full year 2023 to 4 US cents per share (US\$46 million). This represents 55% of the cash available for dividend payments, exceeding the policy to pay out a minimum of 30% of Group free cash flow before growth capital expenditure. The Board applied its discretion to allocate US\$21m to supplementary dividend payments given the continued strength of the balance sheet.

The final dividend is calculated by the following:

	30-Jun-23	30-Dec-23	2023
US\$'000	Interim	Final	Total
Group free cash flow	19,362	29,633	48,995
<u>Add back:</u>			
Growth capex financed from treasury ¹	21,818	13,887	35,705
Cash flow available for dividends	41,180	43,520	84,700
30% minimum distribution as per dividend policy	(12,354)	(13,056)	(25,410)
Surplus cash flow for discretionary capital allocation²	28,826	30,464	59,290
Board dividend supplement	(10,814)	(10,113)	(20,927)
Total dividend declared	23,168	23,169	46,337
US Cents	2.0	2.0	4.0
% of cash flow available for dividend payments	56%	53%	55%

Centamin maintains a robust financial position, with cash and liquid assets of US\$153 million as at 31 December 2023. The Company's disciplined approach to capital allocation, provides the flexibility to allocate capital to shareholders returns, business investment and growth as well as environmental and social opportunities.

¹ Defined as Sukari growth capex funded from Treasury and available for cost-recovery as per the Concession Agreement

² Discretionary capital allocation options include future project investment, portfolio optimisation, supplemental shareholder returns

FORWARD-LOOKING STATEMENTS

This announcement (including information incorporated by reference) contains "forward-looking statements" and "forward-looking information" under applicable securities laws (collectively, "forward-looking statements"), including statements with respect to future financial or operating performance. Such statements include "future-oriented financial information" or "financial outlook" with respect to prospective financial performance, financial position, EBITDA, cash flows and other financial metrics that are based on assumptions about future economic conditions and courses of action. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "believes", "expects", "expected", "budgeted", "forecasts" and "anticipates" and include production outlook, operating schedules, production profiles, expansion and expansion plans, efficiency gains, production and cost guidance, capital expenditure outlook, exploration spend and other mine plans. Although Centamin believes that the expectations reflected in such forward-looking statements are reasonable, Centamin can give no assurance that such expectations will prove to be correct. Forward-looking statements are prospective in nature and are not based on historical facts, but rather on current expectations and projections of the management of Centamin about future events and are therefore subject to known and unknown risks and uncertainties which could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements. In addition, there are a number of factors that could cause actual results, performance, achievements or developments to differ materially from those expressed or implied by such forward-looking statements; the risks and uncertainties associated with direct or indirect impacts of COVID-19 or other pandemic, general business, economic, competitive, political and social uncertainties; the results of exploration activities and feasibility studies; assumptions in economic evaluations which prove to be inaccurate; currency fluctuations; changes in project parameters; future prices of gold and other metals; possible variations of ore grade or recovery rates; accidents, labour disputes and other risks of the mining industry; climatic conditions; political instability; decisions and regulatory changes enacted by governmental
